

X-mas Tree Popup Card

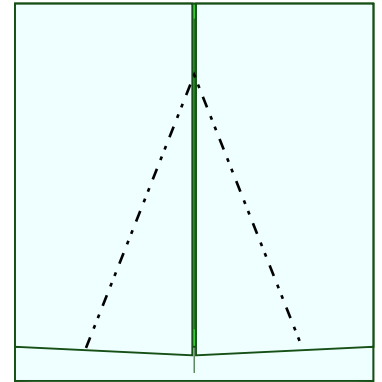

Model & Diagrams Jens Kober, 2013

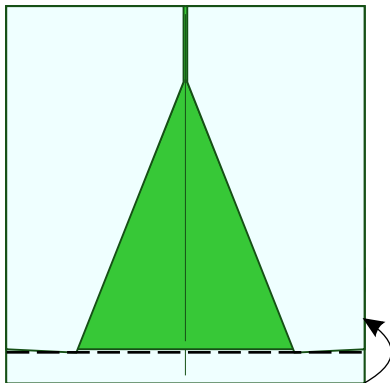

1. Start with the color of tree up. Fold both sides to the center.

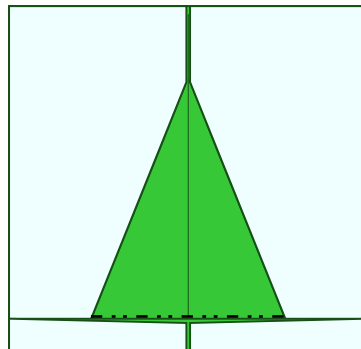

2. Fold behind slightly below the center. Enlarged view.

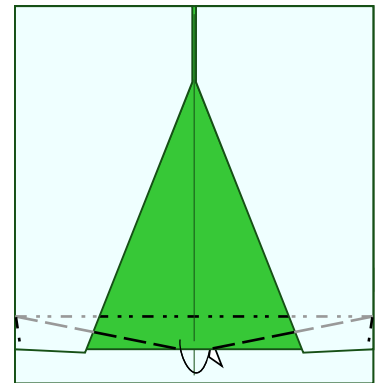

3. Fold corners of the top layer behind symmetrically.

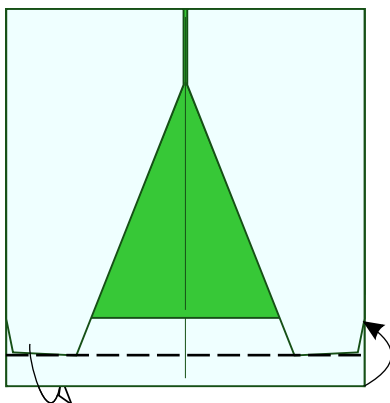

4. Fold the bottom layer up along the edge of the top layer.

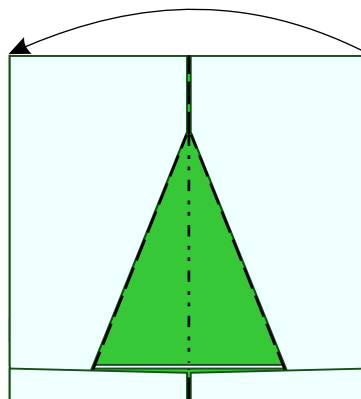

5. Mark the tree along the edge. Unfold to the previous step.

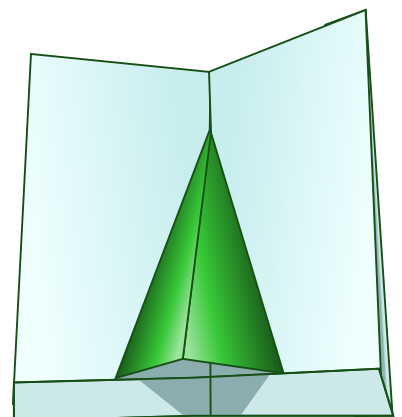

6. Fold the bottom of the tree behind. The paper will need to be swiveled. Try to keep as much of the top white paper in place as possible.

7. Fold up again like in step 4. Tuck the flaps into the pockets

8. Close the card while reverse folding the tree.

Done.
